Iit is a course that covers various skills like communication, soft, interview etc.

PROJECTS

nike's website clone
Jul 2022 - Jul 2022
https://deepakk-t7.github.io/nike-clone/

Made a clone of Nike's official website as a personal project.

Simon game
Jun 2022 - Jun 2022
https://deepakk-t7.github.io/simon-game/

Made this game using html, css and javascript. In simon game we have to remember the sequence of blinking blocks and have to press the blocks in the same pattern. If the pattern is wrong, the game will end with a buzz sound.

Dice game
Apr 2022 - Apr 2022
https://deepakk-t7.github.io/dice_game/

Made a simple dice game using javascript and html css, which randomly decide a winner between player 1 and 2, with

the greater dice number.

Personal portfolio website
Jan 2022 - Jan 2022
https://deepakk-t7.github.io/my-site/
It is a static responsive portfolio website made with html and css.
